

General Education Assessment Workshops

The Undergraduate Assessment Office offers three-part voluntary workshops to help faculty develop GER assessment materials. Workshop 1 provides background related to GER assessment and guides faculty in creating outcomes and identifying student assignments for measuring those outcomes. Workshop 2 focuses on changes in the [Course Action Form](#) and the [syllabus requirements](#) regarding GER assessment and leads faculty in making appropriate changes in both. Workshop 3 provides guidance in making sense of assessment data and in writing assessment reports. Each workshop, designed and delivered by Michael Carter, Associate Professor of English, runs for approximately two hours. If you are interested in attending any of the workshops scheduled for the fall of 2003, please contact Laura Jacovec at Laura_Jacovec@ncsu.edu or at 513-4175.

- Phased Implementation Workshop 1: Creating Outcomes and Identifying Means of Evaluation
