INTERNSHIP DESCRIPTION

WHO WE ARE:

Based in Raleigh, N.C., Serious Robots is a top commercial post-production boutique that provides all aspects of editorial, animation, and finishing to companies in commercial, long-form and other industries. Serious Robots provides all post production including offline, online, and graphics for TLC's top rated show Jon & Kate + 8. Serious Robots is a division of Trailblazer Studios. Visit www.seriousrobots.com for more information.

WHAT WE OFFER:

Serious Robots offers unpaid internships during Fall/Spring/Summer semesters. Interns are required to work at least 10 hours a week (with minimum 3 hr shifts) as support for the post production staff and must have their own transportation. Depending on applicant's interests, duties could include logging and digitizing of footage, dubbing, inventory of elements, prepping of jobs for online and editing string ups for lead editors. As with all members of the Serious Robots team, there are times when the intern might be asked to do runs, help with client services, maintain rooms and equipment, and pinch hitting on Red Truck Films shoots.

REQUIREMENTS:

A basic understanding of production to post production workflow is a must. Although not required, we encourage all applicants to have taken a video production class. Knowledge of Avid, Final Cut Pro, Photoshop, After Effects, and DVD Studio Pro is a plus.

HOW TO APPLY:

Please send resume to Leah Welsh, Executive Producer of Serious Robots:
leah@seriousrobots.com.
