

## **New BS in Philosophy with a Concentration in Logic, Representation, and Reasoning**

- ❑ **New program exclusive to NC State**
- ❑ **Available to students beginning Fall 2006**
- ❑ **30 credit hours**
- ❑ **Provides solid grounding in both the concentration and traditional core areas of Philosophy**
- ❑ **Develops concepts, knowledge, and skills with many applications in Mathematical and Natural Sciences, Computer Science, and Engineering**
- ❑ **Great second major for students in these fields**
- ❑ **Strengthens preparation for high-tech and R & D work in such areas as informatics, knowledge engineering, knowledge discovery, and data-mining**
- ❑ **Excellent preparation for graduate study in Philosophy**

***“This program is a step forward in NC State’s ability to offer its students solid preparation for work and graduate study in our increasingly knowledge-based economy. It puts NC State in a league with only a few other universities.”***

**– Dr. Gary H. Merrill, Principal Scientist  
Analysis Applications, Research, and Technologies  
GlaxoSmithKline Research and Development**
