

North Carolina State University

Department of Chemistry

Undergraduate Research Scholarships

for the Academic Year 2009 – 2010

(1) Robert Proctor Undergraduate Research Scholarship: An applicant for the Robert Proctor Undergraduate Research Scholarship must be a rising senior undergraduate chemistry major. The scholarship requires a one-year (two-semester) commitment to research and provides a \$1250 stipend to the student and \$750 for research supplies or travel to a conference to present research

(2) GlaxoSmithKline Undergraduate Research Scholarship: An applicant for the GSK Undergraduate Research Scholarship must be a chemistry major. This award requires a one-year (two-semester) commitment to research in the Department of Chemistry at NCSU. The award provides a \$1250 stipend to the student and \$750 for research supplies or travel to a conference to present research.

(3) BASF Undergraduate Research Scholarship: An applicant for the BASF Undergraduate Research Scholarships must be a chemistry major. These awards require a one-year (two-semester) commitment to research in the Department of Chemistry at NCSU. The award provides a \$1250 stipend to the student and \$750 for research supplies or travel to a conference to present research.

In order to apply:

I. Check the appropriate scholarship (*you may apply for more than one scholarship*):

Robert Proctor Scholarship GlaxoSmithKline Scholarship BASF Scholarships
