

# Responding to Radioactive Spills in Labs

**Take a Survey Meter, Dosimeter and Spill Kit**

- **Containable Fire**
- **Airborne Release**
  - **Large Area Contamination**

**Remove personnel to a safe area and have them remain together**

**Call Campus Police**

**Standby for RSD and Campus Police to Arrive**

**Personal Injury with Contamination**

**Secure the Area**

**Call Campus Police**

**Administer First Aid**  
**Monitor & Decontaminate down to background levels if the severity of the injury allows**

**Standby for RSD and Campus Police to Arrive**

**Minor Spill (Microcurie amounts) with Contaminated Personnel**

**Monitor & Decontaminate down to background levels; Document results**

**Call RSD for Assistance if necessary**

**Standby for RSD Personnel to Arrive**
