

# Bookmarks:

Bookmarks function like a *clickable table of contents*, containing links that allow you to quickly view the building, street, or outdoor space you wish to see.

## To open Bookmarks

If you do not see the bookmarks, it is very easy to turn them on. Simply click once on the Bookmark Icon.

Bookmarks are organized in the following four groups:

- Campus Areas
- Building Names
- Street Names
- Outdoor Spaces / Courtyards

To expand the group list, click on the “plus symbol”, or to minimize the group list, click on the “minus symbol”, located next to the group name, and the list will appear or disappear accordingly.

Please see <http://www.adobe.com/> for additional information
