

Valerie Wilson - Training Technology Coordinator

Valerie joined NC State in 2010, and currently coordinates the Human Resources business systems and web technologies related to training administration and staff development. Valerie has 19 years of experience in software development, accounting, data management and reporting, and process improvement. Her industry experiences include manufacturing (Siemens Energy & Automation and NORTEL), health care (A4 Health Systems/Misys and Imonics/BMG), mortgage banking (Bank of America), local government administration systems (Infocel, Inc.). Her career focus has included maximizing the information technology benefits for system users by creating partnerships, forums, and training. Valerie has most recent experience in higher education financial systems and post-award grant administration within Financial Affairs at Clemson University. Valerie holds a Masters degree from NC State in Public Policy/Economics, and a B.A. degree from UNC-Chapel Hill in Political Science/Business Administration.
