

What people are Saying about Pathways:

“Pathways has been one of the **best learning environments** I’ve experienced. The lessons I’ve learned are applied every day with clients, **extremely useful curriculum** applicable to my job and career growth, **fantastic instructors** who not only knew their subjects, but knew how it applied within the overall goals of Pathways.” -*Scott Place, Small Business & Technology Development Center*

“More valuable than processes and procedures, though, is the **confidence I gained** and the **empowerment** I feel in my ability to affect change in the workplace, in my life, and in the world.” -*Heather McKay, NCSU Libraries*

“It is obvious that the Pathways participants think highly of Stephanie and Kevin, and that they learn a great deal from their involvement. I am serious when I say that **Pathways is one of the most important things that NC STATE does**, and the 675 graduates are making a real difference on campus or wherever they are.” -*Dr. Tim Luckadoo, Associate Vice Chancellor Student Affairs*

“Pathways has provided me with the tools that will have a **positive impact on everything I do** moving forward.” *Susan Lankford, PhD. CVM-Molecular Biomedical Sciences*

“**Pathways has taught me life lessons and skills** that will only become more defined as I continue to grow.” -*Tara Williams, Facilities Operations*

“Each day I can feel the power and see the **impact that Pathways continues to have** in my life. Because of the influence that Pathways has made in my life I have been able to make the changes that I needed to make but previously did not have the strength, the power or the tools I needed to make it happen.” -*Dianne Chiogna, Student Affairs Counseling Center*
