

## Personal Protective Equipment and Clothing Checklist

Are hazards that require the use of personal protective equipment (PPE) present or are they likely to be present?

Yes                      No

Has appropriate PPE been selected for hazardous tasks?

Yes                      No

Have employees been trained in PPE procedures – for example, which PPE is necessary for a job, when to use it and how to properly adjust it?

Yes                      No

Are protective goggles or face shields provided and worn where there is any danger of flying particles or corrosive materials?

Yes                      No

Are approved safety glasses required to be worn at all times in areas where there is a risk of eye injuries, such as punctures, abrasions, contusions or burns?

Yes                      No

Are employees who need corrective lenses (glasses or contacts) required to wear only approved safety glasses or protective goggles, or to use other medically approved precautionary procedures?

Yes                      No

If there is a danger of cuts or exposure to corrosive liquids, chemicals, blood or other potentially infectious materials, do employees wear protective gloves, aprons, or shields?

Yes                      No

Are hard hats provided and worn where danger of falling objects exists?

Yes                      No

Are hard hats inspected periodically for damage to the shell and suspension system?

Yes                      No

Is appropriate foot protection required where there is the risk of foot injuries from hot, corrosive, or poisonous substances: falling objects: or crushing or penetrating actions?

Yes                      No

Are approved respirators provided for regular or emergency use where needed?

Yes                      No

Is all protective equipment maintained in a sanitary condition and ready for use?

Yes                      No

Do you have eyewash facilities and a quick-drench shower within the work area where employees are exposed to corrosive materials?

Yes                      No

Are food and beverages consumed only in areas where there is no exposure to toxic material, blood or other potentially infectious materials?

Yes                      No

Is hearing protection provided when sound levels exceed those of the OSHA noise standard?

Yes                      No

Are adequate work procedures, protective clothing and equipment provided and used when cleaning up spilled toxic or otherwise hazardous materials or liquids?

Yes

No

Are there appropriate procedures in place for disposing of or decontaminating personal protective equipment contaminated with or reasonable anticipated to be contaminated with blood or other potentially infectious materials?

Yes

No
