Source of Financial Support Amount in \$US

Changes in Curriculum/Adding a Co-major or "En Route" Masters: When Must I Show Funding?

Attach supporting documentation, such as copy of RA/TA contract, sponsor letter, personal bank statement, etc. if:

- a) you require an EXTENSION of your I-20 as a result of the change in curriculum/addition of co-major, or
- b) the SOURCE of funding has changed since the last issuance of your I-20 (e.g. you have a new assistantship)

You do not have to show funding if the source of funding has not changed and the length of your program will stay the same or will shorten as a result of the change.

Changes in Level: When Must I Show Funding?

You MUST always show supporting documentation (such as copy of RA/TA contract, sponsor letter, personal bank statement, etc.) when changing to a higher educational level. If changing down a level (e.g. your program will be shortened) and the source of funding has not changed, you do not need to show new funding.

Funding for the I-20/DS-2019 must reflect guaranteed funding for at least one academic year in writing. If your department funding is/cannot be certified beyond one semester, be prepared to demonstrate additional funding (e.g. personal/family funding) for the subsequent semester. OIS cannot process a new I-20/DS-2019 without the appropriate financial documentation.

BASED ON THE INFORMATION ABOVE, PLEASE CHECK ONE OF THE FOLLOWING:

I certify that the financial information on my current I-20 is accurate, the source has not changed, and I do not require an extension to my program.

~OR~

I certify that the funding information on my current I-20 HAS/WILL change(d) and/or I require an extension to my program. I have attached the necessary financial documents to reflect funding for one academic year (or one semester, if graduating in current semester)

You can submit support letters and bank statements electronically and copies are accepted; in English only please
