Hi George

You are welcome to use the photos. I note that you have already linked to the Vischeck site and credited us. That is usually all that we ask.

Best wishes

Alex

[TWIMC](#),

My colleagues and I are developing a web site covering effective poster presentations. We would like to use the images of the strawberries from your page <http://www.vischeck.com/info/wade.php> on one of our pages that discusses issues of color deficiency.

Our page URL is <http://www.ncsu.edu/project/posters/NewSite/CreatePosterColors.html>

We would also like to create a link to your site from ours.

Please let us know if this is acceptable.

Thank you,

george
