

The Biggest Reference Library in the World: A Surfing Safari
A. Cleveland & L. Grable

Top ten list - science in the classroom

There is a huge variety of sites on the web that can be used in the classroom are some of our favorites.

Access Excellence Activities-To-Go

<http://www.gene.com/atg-bin/pphtml/ae/atg/index.html>

A searchable database of lessons and teaching strategies for science teachers to use to help students learn the concepts and processes of the life sciences.

Frank Potter's Science Gems

<http://www-sci.lib.uci.edu/SEP/SEP.html>

This site contains approximately 3100 links to sciences resources which are available on the web.

Solar System Simulator

<http://space.jpl.nasa.gov/>

View any of the planets or satellites from Earth with this simulation.

Nova Hot Science Activities

<http://www.pbs.org/wgbh/nova/hotscience.html>

Learning activities designed to teach science in an interactive way.

The Explorer

<http://explorer.scrtec.org/explorer/>

This web site is a collection of educational resources for K-12 mathematics and science education.

Science Junction

<http://www.ncsu.edu/sciencejunction/>

Science Junction, a cyber community for teachers, students, grades 6-12

Annotated listing of science lesson plans

<http://www.ncsu.edu/sciencejunction/terminal/im>

A listing of teacher lesson plans from the IMSEn section of Science Junction.

Microbe Zoo

<http://commtechlab.msu.edu/sites/dlc-me/zoo/>

Microbe Zoo has information on soil, water, and health

Physical Sciences Resource Center

<http://www.psrc-online.org/>

The Physical Sciences Resource Center from the American Association of Physics Teachers

Starchild

<http://starchild.gsfc.nasa.gov/docs/StarChild/Star>

Starchild, space science for elementary students

Workshop homepage available at <http://www.ncsu.edu/sciencejunction/terminal/imse/lowres/2/imseteach.htm>
