

Private Tour Of the North Carolina Museum of Natural Sciences

QuickTime™ and a
TIFF (Uncompressed) dec
are needed to see this pic

Come see the world's only specimen of a dinosaur's heart. Experience the largest, most comprehensive collection of North Carolina's gems and minerals ever displayed. View the "Terror of the South," the only *Acrocanthosaurus* skeleton displayed anywhere in the world.

On June 11, Dr. Vince Schneider, the head curator of the NC Museum of Natural Sciences, will guide NC State Summer research students through the areas most outstanding science museum. We will meet at the dorm and go to the museum together.

June 11
10:00 AM
meet at
Lobby of University Towers
