

Spring 2012 Catalogue of Academic Opportunities for University Scholars

This catalogue includes information on courses available for the Spring 2012 semester. Honors sections (designated with an “H” suffix) of regularly scheduled courses are available to all students at NC State who meet the requirements for participation. Questions about these courses should be directed to the department offering the course.

University Scholars Registration Times:

Senior Scholars: October 24
Junior Scholars: October 27
Sophomore Scholars: November 2
Freshman Scholars: November 8

Early Registration Policy

Each NC State University student is assigned an enrollment appointment time in MyPack portal. University Scholars are given the first enrollment appointments for their class status, generally one day in advance of regular registration for that class status. Your registration window is determined by your current class status, as defined by the Department of Registration and Records.

Important Note: The USP Advisory Committee has determined that early registration privileges will be granted only to those USP students who meet one of the following criteria:

1. Students currently registered for Scholars Forum, or who have already completed three semesters of Forum;
2. Students currently registered for approved coursework (which may include: an Honors section of a course (with an “H” suffix), a First-Year Inquiry course (with a “Q” suffix), an Honors Contract course, or a 500-level graduate course);
3. Students who have already completed 12 hours of approved coursework.

NOTE: If you have difficulties registering for a particular course, please compare the course information with that provided on-line at:
